

Kiryl Fursau

Product Owner — Compliance & FinCrime Platforms · Automation · AI Agents

Warsaw, Poland (open to relocation: UK · UAE · EU) • +48 505 521 921 • fursau.kiryl.pm@gmail.com • linkedin.com/in/kirillfursovpm

Product Owner who builds compliance & financial-crime platforms **0→1** in regulated fintech — then automates the manual work away. 5+ years across KYC/AML, sanctions/PEP screening, payments, onboarding and anti-fraud spanning **FCA, CySEC, FSA and MENA** regulators. Over my tenure **raised clean straight-through onboarding from 35% → 85%** and retired multiple third-party vendors by building in-house. Own roadmap & delivery **end-to-end**; led **24 people** across 3 teams. Data-driven, ROI-led, bias for action.

CORE SKILLS

Roadmap & outcome ownership · 0→1 product launches · **ROI-based prioritisation** · OKRs & success metrics · A/B testing & experimentation · SQL · rule engines & back-office automation · LLM / AI agents · API & 3rd-party vendor integrations · platform & systems design · KYC/AML · sanctions & PEP screening · payments operations · customer risk scoring · anti-fraud · stakeholder management (Compliance · Legal · Risk) · Jira · Confluence · Scrum

EXPERIENCE

Product Owner — Capital.com

Jul 2025 – May 2026 · Poland

Own vision, roadmap & success metrics for the internal compliance & operations platform used by 400+ agents across 7 regulated jurisdictions — the full FinCrime lifecycle, at a 1,000-person company.

- Own delivery end-to-end as the go-to owner and **lead 3 cross-functional teams (24 people)** — which I **built myself** (owned hiring, culture-fit interviews and the hiring process) and drove to product fluency via enablement and documentation.
- Pitched C-level and won funding** to replace the PEP/sanctions provider and build transaction monitoring in-house — owning the narrative end-to-end.
- Prioritised on ROI both ways**: built monitoring & screening in-house instead of renewing multi-million-£ vendor contracts, yet **pushed back on a founder's "build face-matching in-house" proposal** where paying a vendor beat building.
- Shipped **AI agents (LLM)** that auto-resolve cases — **auto-cleared ~30% of ~6,000 monthly manual-review cases** (~20% of ~30k monthly onboardings).

Product Manager — Capital.com

Apr 2023 – Jul 2025 · Warsaw

Compliance & back-office platform across KYC/AML, payments, onboarding and operational automation; managed a cross-functional team of 8.

- Delivered **40+ major initiatives** and brought the platform **fully in-house**, retiring **3 external vendors** — eliminated a **~£1M/yr onboarding-orchestration** spend and a **~£3M transaction-monitoring** contract.
- Built **real-time sanctions & PEP screening from scratch (0→1)** at every onboarding step (per-jurisdiction config, feature flags, audit trails); moving off the third-party vendor **halved screening cost (~£600K→£300K/yr)**.
- A/B-tested electronic-verification (EV) provider cascades in Amplitude + SQL**, tuning the cascade to optimise onboarding conversion against vendor cost.
- Migrated millions of verified users** legacy→in-house over ~12 months with **zero impact on the onboarding funnel or decision speed**.
- Designed an **8-factor customer risk-scoring engine**, automated **proof-of-address verification (~60% manual review)**, and shipped wire-deposit automation and anti-fraud scoring per regulated entity.

Operations Project Manager — Capital.com

Jul 2021 – Apr 2023 · Warsaw

- Automated KYC, transaction processing and anti-fraud monitoring across operations, compliance and engineering; **doubled onboarding conversion (+100%)**.
- Automated CRM→app document requests and client reporting — **–75% support tickets** and **–67% client transaction queries**; with the lighter queue, **time-to-resolution improved ~7x (~86%)**.

Back Office Team Lead / MLRO — Capital.com

Feb 2021 – Jul 2021 · Minsk

- Led a 12-person team (hired 4; built 24/7 coverage) and served as **MLRO** under CySEC/FCA/NBRB — passed a regulatory audit on a tight timeline.

Back Office Officer — Currency.com

Apr 2020 – Feb 2021 · Minsk

- KYC/AML monitoring, suspicious-activity reporting and transaction surveillance at a regulated crypto exchange.

Bank Product Sales Specialist — Belarusbank

Aug 2016 – Apr 2020 · Minsk

- Top 10 of ~4,000** employees in card-product sales (Mastercard ranking); **"Best Young Specialist" (1st of ~500)**; cards, deposits, lending, insurance (retail & SME).

EDUCATION & CERTIFICATIONS

BSc Economics — Accounting, Analysis & Audit (Banking), Belarusian State Economic University · 2016–2020 · PMI **CAPM®** · Java Developer (TeachMeSkills) · "Build AI Agents with n8n" · MS Copilot for Productivity

LANGUAGES & BEYOND THE ROLE

English — Fluent · Russian — Native · Belarusian — Native

On personal initiative, organised company-wide team-building events — grew turnout from **40 to 130 people** over two years on a small budget.
